Experience

Design Lead, Hack for LA

Jan 2023 - Present

- Leading a team in the development of a design system to streamline and improve processes within the UI/UX Community of Practice
- Defining and documenting design principles and styling guidelines in a comprehensive guide

Lead UX/UI Designer, iBored

Oct 2022 - Jan 2023

- Designed a mobile app from concept to launch, that allows users to easily create spontaneous hangouts with friends
- Collaborated with cross-functional teams, including developers and project managers, to ensure timely delivery of designs while maintaining technical feasibility
- Implemented best practices for mobile app design, including accessibility guidelines

UX/UI Design Intern, ChemTalk

Oct 2022 - Jan 2023

- Successfully redesigned an outdated website for a non-profit organization that promotes free and accessible chemistry education, improving its overall aesthetics, functionality, and user experience
- Communicated with stakeholders to define the project scope and identify new features to implement, while ensuring the website aligns with the organization's goals

Projects

Applico, UX/UI Designer

Nov 2022

- Designed a user-friendly web application that help users efficiently keep track of their job applications
- Conducted A/B Testing and implemented user feedback to improve the application's design and functionality
